

ACTIVITY 13: “Set one die and roll two dice subtraction”

Materials needed:

- Subtraction chart, two basic black dice and one basic red die

How to play:

- Teacher sets one basic black die at 7 (or more) and rolls the other two dice. Student adds the two black dice and then subtracts the red die. Teacher may show the Student that if either black die has the same number showing as the red die does the answer will be whatever number is showing on the other black die. Student may use chart at the beginning to show Teacher how they got the answer.

Possible Next Steps/ When to Move On to next activity:

- When the teacher is satisfied that the student can get the correct answer without hesitation it is time to move on the next activity.
