

ACTIVITY 19: "Using the Multiplication Chart"

Purpose of the activity:

- Student will be able to use the multiplication chart to multiply two numbers

Materials needed:

- Multiplication chart and two basic green dice

How to play:

- Teacher rolls two dice and has Student show how to use the chart to find the product

Possible Next Steps/ When to Move On:

- Teacher discretion when Student is able to correctly use the chart well consistently.
- The addition, subtraction and multiplication charts are all read and used the same way. When the Student is able to efficiently use one of the charts they will be able to use all of them.
