

ACTIVITY 20: "Set One Die Multiplication"

Purpose of the activity:

- Student will be able to multiply two numbers together, with Teacher setting one die to make sure to start with easier numbers first.

Materials needed:

- Multiplication chart and two basic green dice

How to play:

- Variation 1: Teacher sets one die at 2 and rolls the other die and Student finds the product, possibly using the multiplication chart at the start.
- Variation 2: Teacher sets one die at 3 (and then increasingly larger numbers) and student finds the product, possibly using the multiplication chart at the start.

Possible Next Steps/ When to Move On:

- Teacher discretion when Student is able to multiply to simple numbers together.
