

ACTIVITY 21: "Write the equation for multiplication"

Purpose of the activity:

- Student will be able to write the equation for multiplying two numbers and find the product.

Materials needed:

- Multiplication chart and two basic green dice.

How to play:

- Teacher rolls two basic green dice and has the Student write the equation using the pen, putting the equation with product on the bottom of the multiplication chart. Student may use the chart at the beginning to get answer but should get to the point where they don't need it.

Possible Next Steps/ When to Move On:

- Teacher discretion when Student is able to multiply to simple numbers together and express the problem as an equation.
