

## ACTIVITY 23: "Set One Die and Roll One Die Multiplication"

### Purpose of the activity:

- Student will be able to multiply any two numbers together from 2 through 13.

### Materials needed:

- Multiplication chart and one advanced green die and one basic green die.

### How to play:

- Teacher sets advanced green die and rolls basic green die and has the student multiply them together. Teacher should start with setting the advanced green die to 10, then 11, 12 and 13 and then roll the basic green die. Student may use chart at the beginning to show Teacher how they got the answer

### Possible Next Steps/ When to Move On To Next Activity:

- When the teacher is satisfied that the Student can multiply whatever two numbers show up on the dice accurately and without hesitation it is time to advance to rolling both the advanced green die and the basic green die.
