

ACTIVITY 6: “Set One Die Addition”

Purpose of the activity:

- Student will be able to add two one-digit numbers together, with the Teacher “setting” one die to start with easier numbers first.

Materials needed:

- Addition chart and two basic black dice

How to play:

- Teacher sets one die at 2 (or whichever number Teacher chooses) and the second die is rolled. Student figures out the sum, possibly using the addition chart at the start. Teacher continues to set one die at increasingly larger numbers.

Possible Next Steps/ When to Move On:

- Teacher discretion when student is able to add two simple numbers together.
