

## ACTIVITY 9: “Write the Equation for Addition”

### Purpose of the activity:

- Student will be able to write the equation for two numbers and get the answer in their head.

### Materials needed:

- Addition chart, pen and two basic black dice

### How to play:

- Two dice are rolled, and the Student writes the equation using the pen, putting the equation and answer on the bottom of the addition chart. Student may use the chart at the beginning to get the sum but should get to the point where they don't need it.

### Possible Next Steps/ When to Move On:

- Teacher discretion when Student is able to add to simple numbers together.
